Don McGlashan

SOLO INPUT LIST: SEPT 2011

СН	Instrument	Microphone	Insert	Notes
1	Don Vocals Clean	Sennheiser e935 (supplied)	Joe Meek OneQ	Tall boom mic stand. See note 2
2	Don Vocals Delay	XLRM-3 tail to stage box	Compressor	See note 1
3	Don Guitar DI	Active DI: BSS/Countryman	Compressor	
4	Don Guitar Mic	Neuman KM184/AKG 451 etc		Short boom stand. No monitors!
5	Vocal Monitor	Y' split from channel 1		See note 2

Effects: If console is analogue: *three* quality multi FX units; to electronic m3000/M-One XL, Lexicon etc. & *one* DDL with tap; to electronic D2/2290 etc. These should all be returned to faders.

Playback: Any playback will be from my iPod, so just a mini-jack (3.2mm) input needed.

EQ: A good quality ½ octave graphic eq over FOH L+R and monitor send. KlarkTechnic/BSS

Console: Digital preferred; Yamaha PM5D/M7CL or LS9; Soundcraft VI6/Si Series or Digidesign Venue. In which case I'll use built in FX, Graphics and Compressors.

Monitoring: A *single* high quality (L'Acoustics, EAW, d&b etc) monitor in front of vocal mic.

PA System: Should be stereo with a single sub per side & should be totally free of noise and hum and evenly cover the venue with no lobing or dead spots. Preferred brands are L'Acoustics, d&b, EAW, Meyer

NB: Please, please NO Behringer, Phonic, Peavey, Alto or Wharfedale! It all makes my ears hurt.

NOTES:

be 'Y' split (to adjacent channel) to allow pre-insert monitors.
